

THE CURRICULUM/ GENERAL EDUCATION REQUIREMENTS

The curriculum is designed to provide a common base knowledge, values, and skills essential to the education of each student through the general education program. The general education program is comprised of 56 semester hours of core courses, which represents a variety of sampling of the different academic areas. Individual departments provide programs for more intensive work in a major field to lay the foundation necessary for advanced study or for successfully entering into professional areas.

In the general education program, Freshman Composition I and II (ENG 131-132) must be completed in sequence and passed with a grade of “C” or higher. African American History I or African American History II is required in the Social Science area. Students majoring in the School of Business must complete Principles of Economics I or II.
